

**YMCA Marathon Club**  
**14 Week Marathon Build Up**  
**Advanced Training Programme**

This Training Programme is intended for the runner who is fitter, more competitive and has more time available for training.

The programme is a guide only and should be customised to meet individual needs. All distances are expressed in kilometres.

**Training Tips**

- The longest runs/walks are on Sunday and should be approximately 85% of race pace.
- Tuesday should be a harder run/walk possibly including hill work where you drive hard up the hill then relax coming down.
- Wednesday is your long mid-week run/walk. Approximately 60% of your Sunday distance. It should start at a steady pace and gradually build to full race pace for the last 3-5ks.
- Thursday is an opportunity to do a run/walk at full pace. You should aim to do at least 4 timed 10k's during the build up to measure your performance.
- Use your rest days. They are important. Use a diary to record your runs/walks and to make notes on your progress. If you miss a day, don't try to catch up.
- Make sure your shoes are in good condition. Watch for health/injury problems and seek advice. A healthy diet is essential. Hydration is most important
